Juken New Zealand Ltd

E-mail: Gordon.Wilmshurst@jnl.co.nz

Dear Gordie

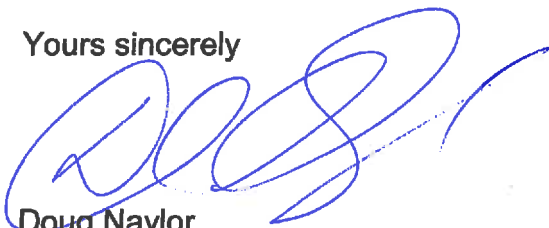

Clarification of Auckland Council's acceptance of J frame and J lintel

I would like to clarify Council's position regarding contents of Council's internal memo dated 12 July 2017 which included information regarding J – Frame that did not take into account the existence of a product certificate (Codemark) that has been issued under s269 of the Building Act 2004 (the Act).

To that end Auckland Council can assure JNL that in accordance with s19(1)(d) of the Act, Auckland Council will be relying on the J- Frame J Lintel Codemark (as issued by AsureQuality and as lodged on the MBIE register) as a means of compliance providing that all conditions of the certificate have been met.

Please feel free to contact me should you have any questions regarding this letter.

Yours sincerely

Doug Naylor

Processing Manager – Building Control
