TRIBOARD TGV PANELS

Another winning lining option from Juken that's as tough as nails.

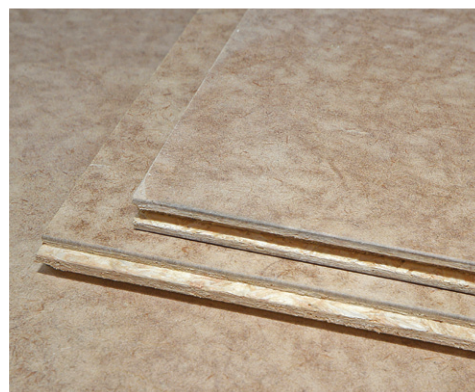

Especially suited to the 'Man Cave' or your Farm Shed where there may be limited fixing. TGV Triboard Panels can be joined off frame ie. no studs – no problem.

400mm DIY size is easy to handle on site and easy to take home in a van or trailer.

- Easy to fix to – 15mm TGV Triboard Panels have good screw holding for fixing shelves almost anywhere. No need to find framing.
- Great look with 'V' joints
- Available in sheet sizes:
2400 x 400
3600 x 400
- Available through your local Building Merchant
