

ENVIRONMENT MANAGEMENT POLICY – JNL FORESTS

OUR OBJECTIVE

Juken New Zealand Ltd (JNL) is committed to responsible Environmental Management as an integral part of its business to ensure Environmental integrity is in every part of our operations and estates. JNL shall develop objectives and targets to foster continual improvement and enhance environmental performance.

OUR COMMITMENT

JNL is committed to:

- Complying with all relevant international, national and local statutory requirements and industry best-practice standards including, but not limited to, ISO: 14001 program and Forest Stewardship Council Certification® (FSC-C013648)
- Communicating this Policy to all Workers, Contractors, Customers and Stakeholders
- Providing the resources for all activities to be conducted in an environmentally sustainable manner
- Ensuring Workers and Contractors are adequately trained to carry out their roles in a safe and healthy manner, and to achieve good environmental outcomes
- Ensuring Workers and Contractors are adequately trained and resource to manage emergency management situations
- Seeking continuous improvement in environmental performance
- Ensuring that, where they exist, there is an ongoing program for conservation, preservation and protection of:
 - Rare, Threatened and Endangered Species
 - Sites of significant Historic and Cultural importance
 - Sites of Environmental Significance, including but not limited to waterways and sites of significant indigenous vegetation
- Ensuring that operations are performed in a manner that promotes the prevention of pollution to:
 - Air
 - Soil
 - Water
- Ensuring that the concerns, needs and expectations of the community, stakeholders and local Iwi are addressed in a timely manner.
