# JNL Forests - Chemicals Management Policy

JNL promotes the reduction of chemical use in its forests through:

- research into the effectiveness of non-chemical alternatives, integrated pest management control, and reduction in chemical use and toxicity.
- continuous review of the Chemical register.
- feedback on current operations from managers and field staff.

JNL will manage the use of Agrichemicals in accordance with:

- Relevant Legislation – Hazardous Substances and New Organisms Act, and the Health and Safety at Work Act, and any attendant regulations.
- Regional and District plans.
- NZ Standard for the management of Agrichemicals *NZS 8409:2004*.
- Industry Best Practice Guidelines.
- JNL Forests Health, Safety and Environment Management System.
